Longview ISD Wellness Policy

Preamble

Longview ISD (hereto referred to as the District) is committed to the optimal development of every student. The District believes that for students to have the opportunity to achieve personal, academic, developmental, and social success, we need to create positive, safe, and health-promoting learning environments at every level, in every setting, throughout the school year.

This policy outlines the District's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this policy establishes goals and procedures to ensure that:

- Students in the District have access to healthy foods through reimbursable school meals - in accordance with Federal and state nutrition standards;
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors;
- Students have opportunities to be physically active during and after school;
- Schools engage in nutrition and physical activity promotion and other activities that promote student wellness;
- The District establishes and maintains an infrastructure for management oversight, implementation, communication about, and monitoring of the policy and its established goals and objectives.

This policy applies to all students, staff, and schools in the District.

I. School Health Advisory Committee (SHAC)

Committee Role and Membership

The District will convene a representative district wellness committee that meets at least four times per year to establish goals for and oversee school health and safety policies and programs, including development, implementation, and periodic review and update of this district-level wellness policy (heretofore referred as "wellness policy").

The SHAC membership will represent all school levels (elementary and secondary schools) and include (to the extent possible), but not be limited to: parents and caregivers; students; representatives of the school nutrition program (ex., school nutrition director); physical education teachers; health education teachers; school health professionals (ex., health education teachers, school health services staff [i.e., nurses, physicians, dentists, health educators, and other allied health personnel who provide school health services], and mental health and social services staff [i.e., school counselors, psychologists, social workers, or psychiatrists]; school administrators (ex., superintendent, principal, vice principal), school board members; health professionals (ex., dietitians, doctors, nurses, dentists); and the general public. To the extent possible, the SHAC will include representatives from each school building and reflect the diversity of the community.

II. Wellness Policy Implementation, Monitoring, Accountability, and Community Engagement

Implementation Plan

The District will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy.

This wellness policy and the progress reports can be found at: w3.lisd.org

Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at the Assistant Superintendents office and/or on District's central computer network. Documentation maintained in this location will include but will not be limited to:

- The written wellness policy;
- Documentation demonstrating compliance with community involvement requirements and participation in the development, implementation, and periodic review and update of the wellness policy;
- Documentation of annual policy progress reports; and
- Documentation of the triennial assessment of the policy;
- Documentation demonstrating compliance with public notification requirements, including: (1) Methods by which the wellness policy, annual progress reports, and triennial assessments are made available to the public; and (2) Efforts to actively notify families about the availability of wellness policy.

Annual Progress Reports

The District will compile and publish an annual report to share basic information about the wellness policy and report on the progress of the district in meeting wellness goals. This annual report will be published around the same time each year May, and will include information from the District. This report will include, but is not limited to:

- The website address for the wellness policy and/or how the public can receive/access a copy of the wellness policy;
- A description of the progress in meeting the wellness policy goals;
- A summary of each events or activities related to wellness policy implementation;
- The name, position title, and contact information of the designated District policy leader(s) identified in Section I; and
- Information on how individuals and the public can get involved with the SHAC or SWC.

The annual report will be available in English and Spanish.

The District will actively notify households/families of the availability of the annual report.

The SHAC will establish and monitor goals and objectives for the District's schools, specific and appropriate for each instructional unit (elementary or secondary OR elementary, middle, and high school, as appropriate), for each of the content-specific components listed in Sections III-V of this policy.

Triennial Progress Assessments

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which schools under the jurisdiction of the District are in compliance with the wellness policy;
- The extent to which the District's wellness policy compares to the Alliance for a Healthier Generation's model wellness policy; and
- A description of the progress made in attaining the goals of the District's wellness policy.

The position/person responsible for managing the triennial assessment and contact information is Dr. Jody Clements and Mrs. Kimberly Dans.

The SHAC, in collaboration with individual schools, will monitor schools' compliance with this wellness policy.

The District will actively notify households/families of the availability of the triennial progress report.

Revisions and Updating the Policy

The SHAC will update or modify the wellness policy based on the results of the annual progress reports and triennial assessments, and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. **The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.**

Community Involvement, Outreach, and Communications

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will use electronic mechanisms, such as email or displaying notices on the district's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy.

III. Nutrition

School Meals

Our school district is committed to serving healthy meals to children, with plenty of fruits, vegetables, whole grains, and fat-free and low-fat milk; moderate in sodium, low in saturated fat, and zero grams *trans* fat per serving (nutrition label or manufacturer's specification); and to meet the nutrition needs of school children within their calorie requirements. The school meal programs aim to improve the diet and health of school children, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns, and support healthy choices while accommodating cultural food preferences and special dietary needs.

All schools within the District participate in USDA child nutrition programs, including the National School Lunch Program (NSLP), the School Breakfast Program (SBP), and Summer Food Service Program (SFSP). All schools within the District are committed to offering school meals through the NSLP and SBP programs, and other applicable Federal child nutrition programs, that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. (The District offers reimbursable school meals that meet [USDA nutrition standards](#).)
- Promote healthy food and beverage choices using the following [Smarter Lunchroom techniques](#):
 - Whole fruit options are displayed in attractive bowls or baskets (instead of chaffing dishes or hotel pans)

- Sliced or cut fruit is available daily
 - Daily fruit options are displayed in a location in the line of sight and reach of students
 - All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily vegetable options with their meal
 - White milk is placed in front of other beverages in all coolers
 - A reimbursable meal can be created in any service area available to students (e.g., salad bars, snack rooms, etc.)
 - Student surveys and taste testing opportunities are used to inform menu development, dining space decor, and promotional ideas
 - Daily announcements are used to promote and market menu options
- Menus will be posted on the District website or individual school websites.
 - The District child nutrition program will accommodate students with special dietary needs.
 - Students will be allowed at least 10 minutes to eat breakfast and at least 20 minutes to eat lunch, counting from the time they have received their meal and are seated.
 - Students are served lunch as near the middle of the day as possible.
 - Participation in Federal child nutrition programs will be promoted among students and families to help ensure that families know what programs are available in their children's school.
 - Schools should not schedule tutoring, pep rallies, assemblies, club/organization meetings, and other activities during meal times.

Dining Environment

The goal is to create a total school environment that is conducive to healthy eating and being physically active.

- LISD provides a clean, safe, enjoyable meal environment for students.
- LISD provides enough space and serving areas to ensure all students have access to school meals with minimum wait time.
- LISD makes drinking fountains available in all schools, so that students can get water at meals and throughout the day.
- LISD encourages all students to participate in school meal programs and protect the identity of students who eat free and reduced price meals.
- Facility design will be given priority in renovations and new construction.
- School personnel will assist all students in developing the healthy practice of washing hands before eating.

Staff Qualifications and Professional Development

All school nutrition program directors, managers, and staff will meet or exceed hiring and annual continuing education/training requirements in the [USDA professional standards for child nutrition professionals](#). These school nutrition personnel will refer to [USDA's Professional Standards for School Nutrition Standards website](#) to search for training that meets their learning needs.

Water

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day* and throughout every school campus* ("school campus" and "school day" are defined in the glossary). The District will make drinking water available where school meals are served during mealtimes. In addition, students will be allowed to bring and carry (approved) water bottles filled with only water with them throughout the day.

- *Water cups/jugs will be available in the cafeteria if a drinking fountain is not present.*
- *All water sources and containers will be maintained on a regular basis to ensure good hygiene standards. Such sources and containers may include drinking fountains, water jugs, hydration stations, water jets, and other methods for delivering drinking water.]*

Competitive Foods and Beverages

The District is committed to ensuring that all foods and beverages available to students on the school campus* during the school day* support healthy eating. The foods and beverages sold and served outside of the school meal programs (i.e., “competitive” foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits. A summary of the standards and information are available at: <http://www.fns.usda.gov/healthierschoolday/tools-schools-smart-snacks>. The Alliance for a Healthier Generation provides a set of tools to assist with implementation of Smart Snacks available at www.healthiergeneration.org/smartsnacks.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, a la carte options in cafeterias, vending machines, school stores, and snack or food carts.

Celebrations and Rewards

All foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition.

Fundraising

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus during the school day. The District will make available to parents and teachers a list of healthy fundraising ideas [examples from the [Alliance for a Healthier Generation](#) and the [USDA](#)].

Schools will use only non-food fundraisers, and encourage those promoting physical activity (such as walk-a-thons, jump rope for heart, fun runs, etc.).

- Fundraising during school hours will sell non-food items or foods and beverages that meet or exceed the Smart Snacks nutrition standards. This may include but is not limited to, donation nights at restaurants, cookie dough, candy and pizza sales, market days, etc.

Nutrition Education Goals

The primary goal of nutrition education is to influence students’ eating behaviors. Building nutrition knowledge and skills helps children make healthy eating and physical activity choices. To make a difference, Longview Independent School District will provide nutrition education that is appropriate for students’ ages; reflects students’ cultures; is integrated into subjects such as math and reading; and provides opportunities for students to practice skills and have fun. Longview Independent School District will also choose nutrition education curricula that are easy to teach and foster lifelong healthy eating.

- Students in grades pre-K-12 receive nutrition education that is interactive and teaches the skills they need to adopt healthy eating behaviors.
- Nutrition education is offered in the school dining room as well as in the classroom, with coordination between the foodservice staff and teachers.
- Students receive consistent nutrition messages throughout schools, classrooms, cafeterias, homes, community, and media
- District health education curriculum standards and guidelines include both nutrition and physical education.
- Nutrition is integrated into the health education or core curricula (e.g., math, science, language arts).

- Schools link nutrition education activities with the coordinated school health program.
- Staff who provide nutrition education have appropriate training.
- Longview Independent School District will follow health education curriculum standards and guidelines as stated by the Texas Education Agency. Schools will link nutrition education activities with the coordinated school health program. Staff responsible for nutrition education will be adequately prepared and participate regularly in professional development activities to effectively deliver an accurate nutrition program as planned. Preparation and professional development activities will provide basic knowledge of nutrition, combined with skill practice in program-specific activities, and instructional techniques and strategies designed to promote healthy-eating habits.
- Students in pre-kindergarten through grade 12 will receive nutrition education that is interactive and teaches the skills they need to adopt healthy-eating behaviors. Teachers are encouraged to integrate nutrition education into core curriculum areas such as math, science, social studies, and language arts as applicable.
- Nutrition education will be offered in the school dining room and in the classroom, with coordination between school foodservice staff and teachers and shall be reviewed by credentialed nutritional professionals. Teachers can display posters, videos, websites, etc. on nutrition topics. Promotions will be geared toward healthy eating and proper nutrition as well as increasing meal participation.
- Longview ISD campuses will participate in USDA nutrition programs where applicable and conduct nutrition education activities and promotions that involve students, parents, and the community. The school nutrition team responsible for these activities will be composed of Child Nutrition Services staff, Student Services staff, school nurses, health teachers, and physical education coaches.
- Food Service/Finance Department will report to Superintendent and Board members the successes of the Food Service program on a monthly basis. SHAC and Wellness Policy notes should be noted as occur.
- Nutrition education should be taught in a manner that promotes the importance of lifelong healthy and nutritional food choices and should encourage children to demonstrate such to their families.
- Students will be encouraged to begin each day with a healthy breakfast.
- Include nutrition education training for teachers and other staff.

Essential Healthy Eating Topics in Health Education

The District will include in the health education curriculum the following essential topics on healthy eating:

- The relationship between healthy eating and personal health and disease prevention
- Food guidance from [MyPlate](#)
- Reading and using USDA's food labels
- Eating a variety of foods every day
- Balancing food intake and physical activity
- Eating more fruits, vegetables, and whole grain products
- Choosing foods that are low in fat, saturated fat, and cholesterol and do not contain *trans* fat
- Choosing foods and beverages with little added sugars
- Eating more calcium-rich foods
- Preparing healthy meals and snacks
- Risks of unhealthy weight control practices
- Accepting body size differences
- Food safety
- Importance of water consumption
- Importance of eating breakfast
- Making healthy choices when eating at restaurants
- Eating disorders
- The Dietary Guidelines for Americans
- Reducing sodium intake

- Social influences on healthy eating, including media, family, peers, and culture
- How to find valid information or services related to nutrition and dietary behavior
- How to develop a plan and track progress toward achieving a personal goal to eat healthfully
- Resisting peer pressure related to unhealthy dietary behavior
- Influencing, supporting, or advocating for others' healthy dietary behavior

[USDA's Team Nutrition](#) provides free nutrition education and promotion materials, including standards-based nutrition education curricula and lesson plans, posters, interactive games, menu graphics, and more.

IV. Physical Activity

Physical Activity Goals

The primary goals for Longview Independent School District's physical activity components are: to provide opportunities for every student to develop the knowledge and skills for specific physical activities, to maintain students' physical fitness, to ensure students' regular participation in physical activity, and to teach students the short- and long-term benefits of a physically active and healthful lifestyle.

- Students are given opportunities for physical activity during the school day through physical education (PE) classes, daily recess periods for elementary school students, and the integration of physical activity into the academic curriculum.
- Students are given opportunities for physical activity through a range of before- and/or after-school programs including, but not limited to, intramurals, interscholastic athletics, and physical activity clubs.
- Schools encourage parents and guardians to support their children's participation in physical activity, to be physically active role models, and to include physical activity in family events.
- Schools provide training to enable teachers, and other school staff to promote enjoyable, lifelong physical activity among students.

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts.

All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District elementary students in each grade will receive physical education for at least 90-135 minutes per week throughout the school year.

All middle school students are required to take physical education and/or athletics throughout all middle school years and all high school students are required to take physical education or related course equivalent of one academic year of physical education.

The District physical education program will promote student physical fitness through individualized fitness and activity assessments through FitnessGram and will use criterion-based reporting for each student.

- Students will be moderately to vigorously active for at least 50% of class time during most or all physical education class sessions.
- All physical education classes in Longview ISD are taught by licensed teachers who are certified or endorsed to teach physical education.
- Physical Education teachers will be provided opportunities for training on a yearly basis.
- Physical Education class size will be consistent with the requirements for good instruction.

Essential Physical Activity Topics in Health Education

The District will include in the health education curriculum the following essential topics on physical activity: when health education is taught OR semesters when student is enrolled in health or physical education.

- The physical, psychological, or social benefits of physical activity
- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
- Differences between physical activity, exercise, and fitness
- Phases of an exercise session, that is, warm up, workout, and cool down
- Overcoming barriers to physical activity
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia, and sunburn while being physically active
- Dangers of using performance-enhancing drugs, such as steroids

Recess (Elementary)

All elementary schools will offer at least 20 minutes of recess on most days during the school year. This policy may be waived on early dismissal or late arrival days. If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating.

Outdoor recess will be offered when weather is feasible for outdoor play.

In the event that the school or district must conduct indoor recess, teachers and staff will promote physical activity for students, to the extent practicable.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies, and others) and do their part to limit sedentary behavior during the school day.

Before and After School Activities

The District offers opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods. The District will encourage students to be physically active before and after school by: participation in extra-curricular organizations.

Active Transport

The District will support active transport to and from school, such as walking or biking. The District will encourage this behavior.

- Secure storage facilities for bicycles and helmets (e.g., shed, cage, fenced area)
- Crosswalks exist on streets leading to schools

V. Other Activities that Promote Student Wellness

The District will integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues, and physical activity facilities. The District will coordinate and integrate other initiatives related to physical activity, physical education, nutrition, and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development, and strong educational outcomes.

Schools in the District are encouraged to coordinate content across curricular areas that promote student health, such as teaching nutrition concepts in mathematics, with consultation provided by either the school or the District's curriculum experts.

All efforts related to obtaining federal, state, or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and complementary of the wellness policy, including but not limited to ensuring the involvement of the SHAC.

Community Partnerships

The District will enhance relationships with community partners (i.e. hospitals, universities/colleges, local businesses, etc.) in support of this wellness policy's implementation. Existing and new community partnerships and sponsorships will be evaluated to ensure that they are consistent with the wellness policy and its goals.

Community Health Promotion and Engagement

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

As described in the "Community Involvement, Outreach, and Communications" subsection, the District will use electronic mechanisms (such as email or displaying notices on the district's website), as well as non-electronic mechanisms, (such as newsletters, presentations to parents, or sending information home to parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

Staff Wellness and Health Promotion

The SHAC will have a staff wellness subcommittee that focuses on staff wellness issues, identifies and disseminates wellness resources, and performs other functions that support staff wellness.

The District will promote staff member participation in health promotion programs and will support programs for staff members on healthy eating/weight management that are accessible and free or low-cost.

Glossary:

Extended School Day - time during before and afterschool activities that includes clubs, intramural sports, band and choir practice, drama rehearsals, etc.

School Campus - areas that are owned or leased by the school and used at any time for school-related activities such as the school building or on the school campus, including on the outside of the school building, school buses or other vehicles used to transport students, athletic fields, and stadiums (e.g. on scoreboards, coolers, cups, and water bottles), or parking lots.

School Day - midnight the night before to 30 minutes after the end of the instructional day.

Triennial – recurring every three years.

Attachment A

Guidelines for Food and Beverages Offered to Students at School and School Functions

All foods and beverages, other than school meals, made available to students during allowable times must meet the following maximum portion size and nutrition standards:

Food Items	Elementary Schools	Middle Schools	High Schools
Baked Chips, Crackers, Popcorn, Trail Mix, Seeds, Dried Fruit, Jerky, Pretzels.	1.5 oz.	1.5 oz.	1.5 oz.
Cookies/Cereal Bars	2 oz	2 oz.	2 oz.
Baked Goods (Pastry/Muffin)	3 oz.	3 oz.	3 oz.
Frozen Desserts, Ice cream	4 oz.	4 oz.	4 oz.
Yogurt	8 oz.	8 oz.	8 oz.
Whole Milk	8 oz.	8 oz.	8 oz.
Reduced Fat Milk	16 oz.	16 oz.	16 oz.
Beverages other than Milk or FMNV	6 oz.	12 oz.	12 oz.
Non Carbonated, unflavored water	No limit	No limit	No limit
Fruit Slushes (50% juice minimum)	6 oz.	8 oz.	8 oz.

All other food/beverages

No more than 9 grams of fat per package (except nuts and seeds) and no more than 35% by weight or 15 grams per serving of added sugar.

At any school function (celebrations, receptions, festivals, sporting events, etc.) healthy food choice options should be available to students. Some suggested foods are listed below:

Raw vegetable sticks/slices with low-fat dressing or yogurt dip, fresh fruit and 100% fruit juices, frozen fruit juice pops, dried fruits (raisins, banana chips, etc.), trail mix (dried fruits and nuts), dry roasted peanuts, tree nuts, and soy nuts (not coconut or palm nuts), low-fat meats and cheese sandwiches (use low-fat mayonnaise in chicken/tuna salads), party mix (variety of cereals, nuts, pretzels, etc.) low-sodium crackers, baked corn chips and fat-free potato chips with salsa and low-fat dips (Ranch, French Onion, Bean, etc.), low-fat muffins, granola bars, and cookies, angel food and sponge cakes, flavored yogurt and fruit parfaits, gelatin and low-fat pudding cups, low-fat ice creams, frozen yogurts, sherbets, low-fat and skim milk products, pure ice water

In selecting food items to offer, keep in mind the numerous students and adults who are on special diets and their consumption of sugar, fat, sodium, etc. is restricted. The use of foods of minimal nutritional value (See Attachment B) as learning incentives should not be practiced, and healthy food choices or non-food items should be substituted.

Organizations operating concessions at school functions should include at least some healthy food choices in their offerings. It is recommended that groups market these healthy options at a lower profit margin to encourage selection by students.

*** Approved Times for the Availability of Foods and Beverages Other than School Meal:**

Elementary Schools – No access any time.

Junior High Schools – Not allowed until after last lunch period and not in area where meals are served or consumed.

High Schools – Allowed, but not in area meals are served or consumed.

Attachment B

Foods of Minimal Nutritional Value

Students may not be in possession of any of the foods or beverages listed below at school except during times approved by this policy.*

- Water Ices – any frozen, sweetened water such as “...sicles” and flavored ice with the exception of products that contain fruit or fruit juice
- All Candies – any processed foods made predominantly from sweeteners or artificial sweeteners with a variety of other ingredients, including powdered drink mix (i.e., Kool-Aid).
- Certain Chips and Snack Foods – any portions larger than or nutritional content other than those indicated on Attachment A.
- Due to their high sodium and fat content, traditional popcorn and pickles may be sold only one day per month. Low-fat popcorn would be acceptable for sale more often.

It should be noted that any of the above items that are found in the possession of any student during unapproved times will be collected by school personnel.

*** Approved Times for the Availability of Foods of Minimal Nutritional Value:**

Elementary Schools – No access any time

Junior High Schools – Not allowed until after the last lunch period

High Schools – Not allowed in areas where reimbursable meals are served or consumed.
