

TEC 21.404 states each classroom teacher is entitled to at least 450 minutes within each two-week period for instructional preparation, including parent-teacher conferences, evaluating students' work, and planning. A planning and preparation period under this section may not be less than 45 minutes within the instructional day. During a planning and preparation period a classroom teacher may not be required to participate in any other activity.

**Proposed**

By exempting the District from this law, the District will have flexibility for special events/days on campus (state testing, field trips, Staff Development etc.), will have flexibility for more collaboration during the school day, and will allow for administrative flexibility based on student needs by campus. The number of minutes that a teacher receives for planning and preparation over a two-week period (450 minutes) must not be reduced but flexibility to provide less than 45 minutes per day, due to special events or scheduling, may be implemented. Any schedule designed with less than 45 minutes per day for teachers must be approved by the Superintendent or his/her designee prior to implementation.
